

Dear Community Organization:

The Junior League of Phoenix, Incorporated (JLP) is pleased to provide you with information regarding our Community Program application process. The JLP's mission is to promote voluntarism, develop the potential of women, and improve the community through the effective action and leadership of trained volunteers, a mission we have been fulfilling for more than 85 years.

Our success in creating, launching, and strengthening programs is based on positive collaborations with our community partners. The JLP can provide committed trained volunteers and funding to help a program move forward successfully while offering our members the opportunity to impact the community and improve their leadership skills.

Effective with the start of the 2023-2024 administrative year, JLP will have a focused impact area of Empowering Women and Girls to be academically and financially successful. We believe the JLP can effectively address this critical need in partnership with other local community agencies. The JLP has been and will continue to commit 80% of our resources to this focus area while striving to make significant impact in this issue area. Programs are generally approved for a 3-year period but may be extended. We will commit to selecting one program specific partnership under \$15,000 in yearly scope and will consider (but may not select) one large-scale project up to \$150,000 in scope. Additionally, the JLP committee assigned to your organization will be responsible for distributing funds, purchasing supplies, etc., on an as requested or pre-planned basis.

We encourage you to submit a program application. Together, our organizations can make great strides in empowering women and girls in the greater Phoenix community! Please see Section A of the packet for specific issues we are tackling.

This packet includes:

- Section A: JLP Focused Impact description
- Section B: Community Program Guidelines
- Section C: Community Program Application Process Timeline
- Section D: Community Program Application
- Section E: Funding Request (if applicable) and Program Budget Worksheet
- Section F: Volunteer Opportunity Worksheet and Description

The deadline for the completed application submission is 5:00 p.m., Friday, October 21, 2022. To download an electronic version of this application, please visit www.jlp.org (located under "Community Impact").

Should you have any questions regarding this information, please contact the Junior League Headquarters at (602) 234-3388 or Jessica Hosain and Kristen Leonard, chairs of Community Research and Development, at communityresearch@jlp.org. SECTION A

The Junior League of Phoenix's Focus Area

The Junior League of Phoenix's community impact efforts focus on Empowering Women and Girls to be academically and financially successful.

ISSUE AREA:

After conducting research, JLP determined the best avenue for JLP to make a long-lasting impact was by preparing women and girls for and supporting them through significant life changes. Women still face considerable pay gaps compounded by other discriminatory factors. Helping set women up for success by giving them educational support, assisting them in accessing services, and providing financial training will improve their marketability and confidence and help decrease this pay gap.

FOCUS AREA:

JLP identified the need for girls and women to receive support and guidance during significant life changes. Phoenix is the 5th largest city in the country and JLP has been committed to developing the potential of women for 85+ years. Women have only been able to open credit cards independently since 1974. Financial independence and education have been historically lacking for women and girls. By focusing on making women and girls in the Phoenix community financially successful and powerful, we will be able to help reduce gender disparities. Women who are financially powerful will become leaders in our society and JLP wants to do its part to make them the strongest leaders possible.

STRATEGY:

Strategy 1: *Improve financial stability.*

It is our intended goal to set-up women and girls to be financially powerful in their communities. Improving financial stability will lead to security. Our goal is to teach women and girls the skills needed to be financially stable and what true financial stability means, along with skills to overcome the barriers many girls and women in our community face.

Strategy 2: *Improve job prospects.*

It is our intended goal to improve job prospects for women and girls in our community. We can help prepare them for interviews, increase their skills and help them become strong self-advocates through negotiation skills.

Strategy 3: *Setting up women and girls for academic success.*

It is our intended goal to set-up women and girls for academic success. Early intervention helps keep women and girls on a path toward financial power and stability. Utilizing our existing programs like ROCKETS to encourage STEM knowledge and partnering with organizations will help us address the importance of education and what disparities in education can do to decrease financial knowledge and power.

All of our intended strategies require member involvement, meaningful collaboration with community organizations and community engagement.

We are looking for programming partners to:

- Increase public awareness of Empowering Women and Girls to be academically and financially successful

SECTION B

Community Program Guidelines

For the Junior League of Phoenix to consider the application, the following criteria must be met:

- The program must be administered by an Arizona tax-exempt organization benefiting the residents of the metropolitan Phoenix area.
- Verification of tax-exempt status must be provided with the application.
- The Junior League of Phoenix is striving to bring specific capabilities and services to the community that make a focused impact. Eighty percent or more of our resources are dedicated to empowering women and girls in the greater Phoenix community. Please see Section A for more information. If your proposal is outside our priority area, appropriate consideration will still be given.
- The program planning/implementation needs to occur during our JLP administrative year (June 1 – May 31). Volunteer opportunities should be available for a committee of JLP members (to include planning duties, etc.) and for our general members of at least 100 hours per year with a minimum of two (2) hours and a maximum of four (4) hours per shift. Shifts should be primarily evening and weekend volunteer hours to assist in accommodating the schedules of JLP members. Please note: Most of our volunteer opportunities begin after September and end in May.
- Volunteer duties should not involve fundraising for your organization.
- The requested funding must be used for a purpose related to the volunteer component. The JLP does not support administrative or operational costs of agencies.
- Programs will not be considered if a member of the applicant's Board of Directors or paid staff currently serves on the JLP Community Research & Development Committee.

Other considerations

- Programs currently receiving funding do not have priority in the selection process. Programs may be funded in excess of three years when appropriate.

Accountability

Organizations chosen to receive JLP support must:

- Complete a Memorandum of Understanding regarding participation in this program with the JLP.
- Purchase and maintain in force, for the duration of JLP support, an umbrella liability insurance policy, payable in a minimum amount of \$2,000,000, naming the JLP as an additional insured. This must be in place at the start of the JLP year.
- Submit quarterly progress reports (format will be provided) and meet mutually agreed-to quarterly milestones.
- Allow JLP members to make on-site visits to ascertain program progress.
- Should your organization apply for a multi-year program, the JLP will require that a program evaluation take place prior to commencement of subsequent years to ensure that the program is meeting its goals and objectives.
